Education

- 2017-2019 **HARVARD BUSINESS SCHOOL** **BOSTON, MA**
Candidate for Master in Business Administration, May 2019. President: Oil & Gas Initiative, Texas Club.
- 2008-2013 **DARTMOUTH COLLEGE** **HANOVER, NH**
Bachelor of Engineering, Mechanical Engineering (2013), Bachelor of Arts, Engineering Science and Studio Art (double major, 2012). Casque and Gauntlet Senior Society, Kappa Kappa Gamma, Women's Club Lacrosse.

Experience

- 2020-Present **FERVO ENERGY COMPANY** **HOUSTON, TX**
2022-Present **Vice President of Strategy**
- Started Fervo's direct air carbon capture (DAC) business line. Filed initial IP, led and closed a \$2 million non-dilutive grant from the Chan Zuckerberg Institute to fund groundbreaking geothermal + DAC research
 - Built and oversaw teams in multiple realms including human resources, policy, regulatory engagement, stakeholder engagement, public relations, and communications
- 2020-2022 **Director of Strategy** **HOUSTON, TX**
- Initiated, built the VDR, conducted, and closed both Series B and Series C venture capital rounds alongside CEO
 - Started the policy and regulatory team and advanced federal and state priorities on geothermal appropriations, permitting, tax, and regulatory engagement
 - Led stakeholder engagement for greenfield project #1, resulting in EA FONSI with full community support
 - Started and organized the human resources department and led initiatives related to hiring, compensation review, employee titling, leveling, and bonusing, and employee cultural engagement
- 2019-2020 **SELECT ENERGY SERVICES** **HOUSTON, TX**
Senior Director Corporate Initiatives
- Worked directly with the CEO to originate and implement corporate initiatives. Led origination of "moonshot" strategies, performing comprehensive macro and inward-looking analyses to provide list of recommendations to the CEO and her team.
- Summer 2018 **SCF PARTNERS & SELECT ENERGY SERVICES** **HOUSTON, TX**
Private Equity Summer Associate
- Split the summer between evaluating potential portfolio investments and providing strategic analyses for one of SCF's existing public portfolio companies.
- 2013-2017 **SCHLUMBERGER** **DENVER, CO**
2017 **DESC Engineer, Unconventional Completions**
- Designed treatments and oversaw execution for dedicated EnCana crews in South Texas' Eagle Ford Shale.
 - Negotiated sales contracts for all planned operations in South Texas, sold and supervised trial implementation of new technologies, and initiated re-fracturing campaign between client production team and SLB integrated project segment
- 2013-2017 **Field Engineer, Well Stimulation** **ROCK SPRINGS, WY**
- Completed Schlumberger's rigorous field engineer training program while leading Southern Wyoming's well stimulation field crew across basins in Wyoming, North Dakota, Utah, Colorado, Texas, and Alaska through downturn conditions.
 - *General Field Engineer Project*—built and delivered well stimulation group's first virtual instructional program, replacing in-person technical training for 125 field engineers per year and saving \$3M in annual training expense

Personal

Board member and Chair of the Policy Committee: Geothermal Rising
